**PRESS RELEASE - JULY 20, 2007**

## **PRE-CUT STRINGER STOCK NOW AVAILABLE IN HO SCALE**

Black Bear Construction Co., Inc., is now producing 24" sections of HO scale stringer stock. The one piece unit models a 3-ply, laminated stringer, made of 8" x 18" timbers, spaced 2" apart. When the part is stained it looks like three separate pieces of wood.

Using this pre-cut stringer stock eliminates the tedium and mess of building laminated stringers. It is easy to lay the stringers for a straight trestle or cut them into sections for building a curved trestle.

The stringers are available individually or as a pair.
